The IDDO Data Access Journey

Contributors choose from two data sharing models:

[1] Contributor-controlled data access

[2] Data Access Committee (DAC) managed access

Data Requestors submit Data Access Application form to IDDO. Acknowledgment sent to Requestor within 1 week of submission.

IDDO Data Manager and Statistician check viability of application. Application is processed according to contributor data sharing model [1] or [2].

Contributors respond to request. Response time unknown.

If data access granted:

Data Requestors have the following options:

• to receive datasets that are already curated immediately (if this option is chosen, the un-curated data sets will not be available at a later date)
• to receive all datasets at a later date on completion of all curation

Data Requestors receive datasets via a secure portal and under the T&C’s of a Data Transfer Agreement.

Outputs are reported back to IDDO.

The Terms of Submission is a legal agreement between the University of Oxford and the Data Contributor host institution.

**The Data Transfer Agreement is a legal agreement between the University of Oxford and the Data Requestor host institution.**
